

Attendance App: Worker Guide

How to clock in and out for your shifts

Your app link: **YOUR-LINK**

Sign in with: your phone number (or staff ID) and the PIN your supervisor gave you.

First time (before your first shift)

1. Open the link above **on your own phone**.
2. Sign in with your phone number and PIN.
3. Optional: add it to your home screen so it opens like an app. Do this **before your first clock-in**, and from then on always open it the same way.
4. When your phone asks for your location, tap **Allow**.
 - **iPhone (Safari):** tap the Share button → **Add to Home Screen**
 - **Android (Chrome):** tap the ⋮ menu → **Add to Home screen**

Every shift

1. At the venue, open the app and tap the green **Clock IN** button.
2. When you finish, tap the red **Clock OUT** button.
3. That's it. Your supervisor approves your hours.

Good to know

- **Hours are rounded to the nearest 15 minutes.** Example: in at 1:13 pm, out at 3:24 pm counts as 1:15 to 3:30 = **2 h 15 min**.
- Tap **My hours** to see each shift, whether it is approved, who approved it and when.
- Use **only your own phone**. Clocking in for someone else, or on someone else's phone, is flagged to your supervisor.
- Your location is checked when you clock in and out, so do it **at the venue**.

Problems?

Problem	What to do
Forgot to clock out	Tell your supervisor what time you finished. You can still clock in next time as normal.
"Location denied" message	Turn on GPS / Location, then allow location for the site in your browser settings and try again.
Forgot your PIN	Ask your supervisor to reset it.
Got a new phone	Tell your supervisor so they can register your new phone.
